PROPOSED CLAIM AMENDMENTS

- 1. (Amended) A solder composition comprising:
 - a mixture of elements an alloy comprising tin (Sn) and silver (Ag); and a granular additive which is at least about 3% of the solder composition by weight, the granular additive comprising a nickel iron alloy comprising about 36% nickel (Ni) and about 64% iron (Fe), by weight, the granular additive being in granular form within said alloy.
- 16. (Amended) A solder composition comprising:
 - a mixture of elements an alloy comprising tin and silver; and a granular additive comprising a material having a low coefficient of thermal expansion and being at least about 3% of the solder composition by weight, the granular additive being in granular form in said alloy.
